Federal Communication Commission Interference Statement

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Notice:

- (1) A Unshielded-type power cord is required in order to meet FCC emission limits and also to prevent interference to the nearby radio and television reception. It is essential that only the supplied power cord by used.
- (2) Use only shielded cables to connect I/O devices to this equipment.
- (3) Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This Wireless LAN radio device has been evaluated under FCC Bulletin OET 65 and found compliant to the requirements as set forth in CFR 47 Sections 2.1091, 2.1093, and 15.247 (b) (4) addressing RF Exposure from radio frequency devices. The radiated output power of this Wireless LAN device is far below the FCC radio frequency exposure limits. Nevertheless, this device shall be used in such a manner that the potential for human contact during normal operation is minimized. When nearby persons has to be kept to ensure RF exposure compliance, in order to comply with RF exposure limits established in the ANSI C95.1 standards, the distance between the antennas and the user should not be less than 20 cm.

WARNING

“CAUTION – Use suitable mounting apparatus to avoid risk of injury.”

“CAUTION – This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures”

“CAUTION –Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.”

“CAUTION - Use a power cord that matches the voltage of the power outlet, which has been approved and complies with the safety standard of your particular country.”

“WARNING – To avoid risk of electric shock, this equipment must only be connected to a supply mains with protective earth.”

WiFi information :

Product Description	IEEE 802.11 b/g/n Wireless LAN and Bluetooth Combo LGA Module
WLAN Standard	IEEE 802.11b/g/n, Wi-Fi compliant
Bluetooth Standard	Bluetooth 2.1+Enhanced Data Rate (EDR) / BT4.0
Major Chipset	Realtek RTL8723BS
WiFi PID/VID	B723 / 024C
Antenna Type	PIFA
Operating Conditions	
Temperature	Operating: 0~70 °C ; Storage: -20~85 °C
Electrical Specifications	
Frequency Range	WLAN: 2.4 GHz Band 2.412-2.472 GHz Bluetooth: 2400~2483.5MHz
Number of Channels	802.11b: USA, Canada and Taiwan : 1 ~ 11 Most European Countries : 1 ~ 13 Japan : 1 ~ 13 802.11g: USA and Canada : 1 ~ 11 Most European Countries : 1 ~ 13 802.11n: USA and Canada : 1 ~ 11 Most European Countries : 1 ~ 13
Modulation	WLAN: DSSS, OFDM, BPSK(9/6Mbps), QPSK(18/12Mbps), DBPSK(1Mbps), DQPSK(2Mbps), CCK(11/5.5Mbps), 16-QAM(36/24Mbps), 64-QAM (72.2/54/48Mbps) Bluetooth: GFSK (1Mbps), Π/4DQPSK (2Mbps) and 8DPSK (3Mbps)

1. Getting Started

1.1 Safety Precautions

Warning!

Always completely disconnect the power cord from your chassis whenever you work with the hardware. Do not make connections while the power is on. Sensitive electronic components can be damaged by sudden power surges. Only experienced electronics personnel should open the PC chassis.

Caution!

Always ground yourself to remove any static charge before touching the CPU card. Modern electronic devices are very sensitive to static electric charges. As a safety precaution, use a grounding wrist strap at all times. Place all electronic components in a static-dissipative surface or static-shielded bag when they are not in the chassis.

Risk of Explosion if Battery is replaced by an Incorrect Type. Dispose of Used Batteries According to the Instructions.

Français:

Attention!

Débranchez le câble d'alimentation de votre châssis chaque fois que vous travaillez avec le matériel. Ne faites pas de connexion lorsque le système est allumé. Les composants électroniques sensibles peuvent être endommagés par les surtensions soudaines. Seule les personnels expérimentés de l'électronique peuvent ouvrir le châssis du PC.

Précaution!

Il faut toujours mettre à la masse pour éliminer l'électricité statique avant de toucher la carte CPU. Les appareils électroniques modernes sont très sensibles aux électricités statiques. Pour des raisons de sécurité, utilisez un bracelet électrostatique. Placez tous les composants électroniques sur une surface antistatique ou dans un sac antistatique quand ils ne sont pas dans le châssis.

Risque d'explosion si la batterie est remplacée par un type incorrect. Jetez les piles usagées selon les instructions

1.2 Packing List

- 1 x OFT-07W01 Open Frame Tablet

If any of the above items is damaged or missing, contact your retailer.

1.3 System Specifications

Board Specification	
Processor	<ul style="list-style-type: none"> • Intel Atom Z3735F
System Memory	<ul style="list-style-type: none"> • 2GB DDR3L RAM
Storage	<ul style="list-style-type: none"> • 8GB or 32GB eMMC
RF	
WIFI	<ul style="list-style-type: none"> • WIFI 802.11 b/g/n/
System Specification	
Internal I/O	
MIO	<ul style="list-style-type: none"> • 1 x RS232 (TX/RX) / RS485 header • 1 x 16 bit GPIO header • 1 x USB connector • 1 x eDP & Dual channel 24bit LVDS • 1 x backlight control & power • 2 x speaker header (1.2W stereo) • 1 x A-MIC header • 1 x Touch Button connector header • 1 x DC input 4pin header
External I/O	
USB	<ul style="list-style-type: none"> • 2 x USB 2.0 • 1 x micro USB Client (Android only)

LCD Characters	
Panel	
Resolution	1280 x 800
Luminance	300
View Angle (H+-/V+-)	80°/80°
Touch	
Touch	PCAP
Surface hardness	6H

Note:

1. Specifications are subject to change without notice.
2. Limitation: CPU Intel Z3735F only has S0iX or S5 without S3 & S4.
S0iX needs hardware support that means all of device must have S0iX support or will not wake up.
Please strongly advice customers to not get into sleep mode, just backlight off.

2.1 Architecture Overview—Block Diagram

The following block diagram shows the architecture and main components of BCX12.

2.2 BCX12 Overviews

2.3 BCX12 Connector list

Connectors		
Label	Function	Note
JHP	Audio line-out connector	
JHDMI	HDMI connector	
JUSB1/2	2 x USB2.0 connector	
JUSB3	USB connector	
JCAM	USB connector	
JRJ45	RJ-45 Ethernet connector	
JDCIN2	DC Power-in connector	
JDCIN3	DC Power-in connector	
JDSI	MIPI FOR 7"	
JTP	Touch connector	
JDPUP1	Debug Port	
JSD	Micro SD card slot	
JRTC	RTC battery connector	
JSEN	I2C connector	
JUUSB	Micro USB connector	
JDIO	General purpose I/O connector	
J485	RS-485 connector	
J232	RS-232 connector	
JAMP_L	SPEAKER_L	
JAMP_R	SPEAKER_R	
JAMIC1	A-MIC connector	
JTB	Touch button board connector	
JBOPOR1	DEBUG connector	

***Ethernet LED behavior:**

Label	LED color	Indication	Meaning
Data Rate	Yellow	LED off	10 Mbits/sec data rate is selected
		LED on	100 Mbits/sec data rate is selected
Link/ACT	Green	off	LAN link is not established
		LED on	LAN link is established
		LED Blinking	LAN active is occurring

***RTC Battery**

Warning: Risk of Explosion if Battery is replaced by an Incorrect Type. Dispose of Used Batteries According to the Instructions."

Attention: Risque d'explosion si la batterie est remplacée par un type incorrect. Jetez les piles usagées selon les instructions.
